*RE: Notification of Commencement of Construction for 40 CFR 60 Subpart JJJJ  
Central New York Oil and Gas, LLC – Sullivan County, PA Natural Gas Compressor Station  
Plan Approval No. 57-00004A*

Dear Mr. Campbell:

Central New York Oil and Gas, LLC, (CNYOG), was issued Plan Approval No. 57-00004A on May 30, 2012 from the Pennsylvania Department of Environmental Protection (PADEP). This plan approval authorizes construction of the compression station at the M1-S Compressor Station (M1-S) in Sullivan County, Pennsylvania. CNYOG has commenced construction of two (2) new natural gas-fired compressor engines (Source IDs P101 and P102) at M1-S. Because the maximum power rating is greater than 500 hp and the compressor engines were constructed after July 1, 2007, they are subject to the requirements of the New Source Performance Standards (NSPS) Subparts JJJJ codified in Title 40 Code of Federal Regulations Part 60 (40 CFR 60).

CNYOG is providing this written notification of the commencement of construction of the compressor engines.

### NOTIFICATION OF CONSTRUCTION

Under 40 CFR 60.4245(c), as it refers to 60.7(a)(1), CNYOG is required to submit this notification of the commencement of construction to the US EPA and PADEP. This notification is required to include the following:

➤ *Name and address of the owner or operator*

Central New York Oil and Gas, LLC  
800 Robinson Road  
Owego, NY 13827

➤ *The address of the affected source*

M1-S Compressor Station  
1165 Janet Hock Road

HEADQUARTERS >

12770 Merit Drive | Suite 900 | Dallas, TX 75251 | P (972) 661-8100 | F (972) 385-9203

USA | China | Middle East

RECEIVED  
AUG 21 2012  
JRP20

Muncy Valley, PA 17758

➤ *Engine information including make, model, engine family, serial number, model year, maximum engine power, and engine displacement*

- One new compressor engine is a 2011 model year Caterpillar Model G16CM34 stationary natural gas engine (Serial Number 56152) with a displacement of 610 litres and a maximum rating of 8,180 hp.
- One new compressor engine is a 2011 model year Caterpillar Model G12CM34 stationary natural gas engine (Serial Number 56151) with a displacement of 457 litres and a maximum rating of 6,135 hp

➤ *Emission control equipment*

The compressor engines are each controlled by an oxidation catalyst.

➤ *Fuel used*

The engines combust natural gas.

The G12CM34 was set on-site June 28, 2012 and the G16CM34 was set on site July 14, 2012.

If you have any questions or comments about the information presented in this letter, please do not hesitate to call me at (407) 982-2891.

Sincerely,

TRINITY CONSULTANTS
